Jajarò is a planing motor yacht, resulting from the design of the architect Luca Dini and from the careful work of Tecnomar shipyard. The length/width ratio and the gravity low center, make it a very stable yacht, featuring extreme comfort while cruising even through rough seas. In 2014 she underwent a major refit with a total repainting, the replacement of most of the carpets and the enhancement of the air conditioning system, as well as many slight improvements.

With her 31 meter-length, she offers wide outdoor spaces like a couple of sun loungers with a sofa bow and a large aft deck with dining table. The descent to the sea is easy and convenient and the swim platform is connected with the

storage locker where the dinghy, water games and equipment of diving are stored.

The large living room is composed of a large L-shaped sofa with a dining table and the stairs leading to the cabins, set behind the sofa. Cabins on the yacht are 4: a stateroom located aft, full beam with walk-in closet and ensuite bathroom; a VIP cabin located bow, also with cabin closet and bathroom; two cabins with twin beds located in the center of the yacht, both with ensuite bathrooms.

The interior design features modern and essential lines and a careful choice of materials, with the perfect combination of wood and leather, thus making the environment extremely warm and comfortable.

Captain Inzaina and his crew of four, will be very attentive and professional, and has a long experience in the charter. Chef Giovanni, coming from the Sardinian island of La Maddalena, will guide you through the discover of Sardinia's flavors and the most famous Italian dishes.

Jajarò is based in Porto Cervo next to the famous Yacht Club.
